

WHAT *The Other Side of Air* is a unique project in Scotland that involves three artists in residence working with community groups and churches over a nine months period. The artist aims to explore local people’s perceptions and experiences of spirituality, and plans to work creatively with them to develop a new artwork.

WHERE The second residency is based around the Crown area and Old High St. Stephen’s Church in the centre of Inverness.

WHO Geoff Broadway has worked with many communities and groups to develop artworks based upon peoples experiences of life. Previous projects have involved; light, sound, fire, photography and video.

WHEN Geoff is here now until late November and is currently exploring the area and getting to know people. He is looking to engage with a wide variety of individuals and groups. This could happen anywhere – the school, community centre, pub, church halls or even in the street!

WHY Getting involved in creating a unique piece of artwork is a great opportunity to express yourself in a new and interesting way and have a very enjoyable experience.

If you would like to be involved in some way – could be anything from helping Geoff get to know Inverness, introduce him to people locally or being part of the creative project – please fill in the form so that we can keep in touch.
